

ABOUT THE REPORT

Process for defining report content and aspect boundaries

Scope

This report covers all Social, Environmental and Economic aspects related to the operations of Attock Refinery Limited at Morgah, Rawalpindi. ARL is very keen to share information about its sustainability endeavors, targets, goals, initiatives and performance with all stakeholders. This report comprehends ARL's efforts towards economic, social and environmental performance. The report portrays ARL's commitment to good governance, transparency and describes the methodology for recognition and evaluation of stakeholder's needs/expectations and its transformation into actionable items. We consider Sustainability Report as a tool for communicating ARL's performance to all stakeholders.

Reporting Period

ARL is publishing Sustainability Report annually since 2005. The Report presents social & environmental performance data for the calendar year 2021, economic and financial data for the fiscal year July 1, 2020 to June 30, 2021, content from previous year reports and relevant information that was available in 2020 after the publication of report. Some data has also been added from the most recent Annual report published on August 26, 2020. This year's report is based on the Global Reporting Initiatives (GRI) standards. We are also following Accountability Assurance standard (AA1000), Social Accountability standard (SA-8000), UNGC indices, ISO Management Standards (ISO 14001, ISO 9001, ISO 45001 and ISO 50001) for reporting Social, Environmental and Economic performance. This report also contains our commitment to the Ten Guiding Principles of UNGC. To accomplish the Agenda 2030, we have mapped our Sustainability practices with the 17 Sustainable Development Goals. ARL sustainability performance was reviewed & verified by the Managers of all departments involved in the process of data gathering and reporting. It is also indirectly reviewed through audits by SGS (Pvt.) Limited for Occupational Health, Safety and Environment, Pakistan National Accreditation Council for Quality of Testing Services and M/s A.F. Ferguson & Co. for financial Accounts.

Difference from Sustainability Report 2020

This report is based on GRI Standards, published by the Global Reporting Initiatives (GRI), and is supplemented with ten guiding principles of UNGC. The GRI Standard has been mapped with 17 SDGs as well to achieve the targets of National Initiative for SDGs. The material aspects identified in 2020 report, re-evaluated by considering comments from internal and external parties. The defined prioritized material aspects are categorized again by changing their category from high to moderate and vice versa. In Sustainability Report 2021, there are some information and data from 2020 report which need to be restated for evaluating the performance and impacts, including management disclosures on social and environmental aspects including human rights, total number of international & local suppliers, supply chain management, Greenhouse gas emissions, total expenditure of procurement, reporting of Health & Safety KPIs and our response for managing business risks & opportunities etc.

Global Reporting Initiative (GRI)

This report is compiled in accordance with GRI Standard. The GRI content index is available at Chapter 7. We consider that Sustainability reporting enhances the performance and better summarizes the social, environmental and economic standing of a company.
